WDTIP System Functionality

The WDTIP Application and Technical Teams are preparing for implementation of the third release of the WDTIP system on December 9, 2000. This release addresses the diversion changes outlined in ACL 00-48 as well as the Welfare to Work 18/24-Month Time Clock changes outlined in ACL 00-60. Modifications will be made to both online and batch. Please see the October 31, 2000 WDTIP Bulletin for a complete description of changes included in this release.

The WDTIP User Manual is currently being updated to reflect these system changes. The updated version will be available on the Project website by December 18, 2000. Please contact the WDTIP Help Desk at (877) 365-7378 if you have questions.

Personnel Updates

We are pleased to announce the addition of Christopher (Chris) Johnson to the Project's State Production Support Team. Chris has recently held application development technical positions and worked as a consultant for major banking, insurance and telecommunications corporations. Chris can be reached at (916) 229-4440 or by e-mail at cjohnson@*hwdcsaws.cahwnet.gov.*

WDTIP System Training

The Training Region will be available to accommodate county end-user training through June 30, 2001. If you have questions about the Training Region, the training data or the Region's availability, please contact the WDTIP Help Desk. The WDTIP **System Training Curriculum** is available for viewing or downloading at the Project's website.
